DAVID POCSAI

SUMMARY

Enthusiastic Junior Developer aspiring to harness and hone software development skills within a growing company. Dedicated, passionate and resilient individual prepared to tackle any challenge in the pursuit of growth and excellence. Amiable team member eager to join and contribute to a positive and constructive work environment.

EXPERIENCE

Fullstack Software Developer
Dec 2020 - *Current*

- Experienced building fullstack web apps with the MERN stack
- Primarily utilizing JavaScript, React, HTML and CSS for frontend development, and ExpressJS, MongoDB and NodeJS for backend development
- Built a variety of games to practice DOM manipulation and designing a dynamic and intuitive user experience
- Developed a fullstack tournament generator application which utilizes authentication, CRUD operations, persistence via mongoDB, and sharing capabilities with other users.
- Worked with a wide range of RESTful APIs, and experienced with making and handling asynchronous network requests
- Confident with data structures, coding challenges and problem solving

Personal Trainer
Movati Athletic | Richmond Hill, ON | June 2019 - August 2021

- Communicated with clients to determine goals and performed client assessments.
- Led, instructed and motivated individuals during cardiovascular exercise, strength training and stretching activities.
- Grew customer base through word-of-mouth referrals based on customer satisfaction and results.
- Maintained detailed personal training records and updated client progress after each session.
- Influenced client purchases and membership renewals with friendly demeanor and in-depth understanding fitness goals.
